About Reflexology

Reflexology is an ancient holistic healing technique used today throughout the world to accelerate the body's own healing ability, encourage relaxation and rejuvenate the entire system.

Reflexology involves the gentle and skillful stimulation of the nervous, lymphatic, and cardiovascular systems, as well as the subtle energy flow within the body. Results are achieved by applying pressure to specific reflex areas on the feet, hands, ears and face that correspond to all of the organs,

glands and other parts of the body. This creates an immediate and positive response within the body. You relax as your body is empowered to cleanse itself of impurities, restore balance, and promote a general sense of wellness.

Laura Norman Holistic ReflexologySM is unique because it empowers your whole being - physically, mentally, emotionally and spiritually - to strengthen, rejuvenate, and facilitate wellness.
